

PERSPEX SOUTH AFRICA

Sanware

Sanware **Product Range**

The Perspex South Africa Sanware products for sanitary ware such as baths, basins, Jacuzzis, sinks and showertrays includes stone cast acrylic, PMMA / ABS sourced from leading local and international manufacturers.

Perspex South Africa's expert sales and technical staff will advise on the best solution for the job and explain the forming and fabrication capabilities of our materials. All our products carry appropriate warranties

Perspex® Cast Acrylic

Baths | Vanity basins | Shower trays | Jacuzzis | Kitchen sinks | Basins

Perspex® Cast Acrylic Sanitary Ware Sheet is a consistent, high quality, durable material with excellent strength, forming capability and heat retention properties. The top surface is protected with a unique thermoformable masking. Perspex® Cast Acrylic is the product of choice for high quality, luxurious sanitary ware.

Perspex® Cast Acrylic features:

- Resistant to a wide range of chemicals associated with standard use in a bathroom or kitchen environment
- Excellent strength and heat protection. Cast Acrylic Fire Rating: Class 3
- Good scratch and chemical resistance
- Long lifespan
- Good thermoformability
- Easy to clean
- UV resistant
- 17 x stronger than glass
- Fire retardant thermal properties ensure burning Perspex produces little smoke and does not promote the spread of fire
- Low density, making it lightweight and economical
- Can be cold bent within certain limits
- Fully recyclable

Perspex® Stone Cast Acrylic

Baths | Vanity basins | Shower trays

A velvety matt surface gives Perspex® Stone Cast Acrylic the look and feel of natural stone. It is available in a range of colours inspired by the simple beauty of nature, and has been designed to cater to the trend towards solid surface furnishings for both traditional and contemporary bathrooms. This range offers all the benefits of cast acrylic.

PMMA / ABS

Baths | Vanity basins | Shower trays

Polymethyl methacrylate (PMMA) capped ABS is a lightweight, shatter-resistant thermoplastic. It is an economical alternative to cast acrylic, and is suitable for use when extreme strength is not a priority.

PMMA Capped ABS features

- Excellent thickness profile
- Comparatively low cost
- Easy to handle and process

About Perspex South Africa

Perspex South Africa has been the market leader in the supply of quality cast acrylic products in sub-Saharan Africa for over 60 years. Our head office is located in Johannesburg, South Africa, and forms the hub of our operation. Our extensive national footprint includes sales offices and warehouses in Cape Town, Durban and Port Elizabeth, which also houses our extrusion manufacturing facility.

Our full product range ensures we have a product for every project or industry. It includes extruded acrylic, PETG, and Multiwall polycarbonate, all of which are supplied from reputable international manufacturers; and locally manufactured ABS, Acrylic Capped ABS, high impact polystyrene and high density polyethylene. Perspex South Africa's technical staff will advise on the best solution for the job and explain the forming and fabrication capabilities of our raw material. All our products carry appropriate warranties.

We believe in pushing boundaries because we're passionate about plastic and the creative possibilities it presents. We love finding solutions that show off the endless creative potential the Perspex range of products offers.
